EXAMINER'S AMENDMENT

1. An Examiner's Amendment to the record appears below. Should the changes and/or additions are unacceptable to an applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

2. Authorization for this Examiner's Amendment was given in a telephone interview with Applicants's attorney, Mr. Brian D. Walker, Reg. No. 37,751 on December 10, 1998.

3. The application has been amended as follow:

I. Claim 17 is now depending upon independent claim 11.

Allowable Subject Matter

4. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The prior art of record does not teach the limitations of the independent claim in combination with other elements. Especially, prior art does not teach a control circuit within a UART (Universal Asynchronous Receiver-Transmitter), capable of operating in both full duplex and half duplex mode for providing single channel communications, comprising a receiver control circuitry for enabling and disabling

the receiver in response to the indication of a full duplex mode operation by the processing means. None of prior art of record does not teach the processing means which capably of determining and detecting whether a UART is operating in a full duplex mode of operation or whether a receiver enables the flag has been set.
